

Isle of Man

Background	The Isle of Man was part of the Norwegian Kingdom of the Hebrides until the 13th century, when it was ceded to Scotland. The isle came under English lordship in the 14th century before being purchased by the British Government in 1765. Current concerns include reviving the almost extinct Manx Gaelic language. The Isle of Man is a British Crown dependency, which makes it a self-governing possession of the British Crown that is not part of the UK. The UK Government, however, remains constitutionally responsible for its defense and international representation.
Capital	name: Douglas
Government type	parliamentary democracy (Tynwald)
Area	total : 572 sq km land: 572 sq km water: 0 sq km
Climate	temperate; cool summers and mild winters; overcast about a third of the time
